

Indesit

Appliance Collection

2012/13

The Indesit brand is evolving... To make your life easier!

With continuous focus on product design, respect for the environment and developing simple intelligent functionality. Indesit appliances are growing up.

For this reason Indesit is one of the major brands in the UK and across Europe. These appliances ease the pressures of modern life and take the hassle out of everyday chores. Efficient, reliable and easy to use, they are full of innovative solutions that make your life easier.

Simple and smart appliances designed to create more time for life so you can enjoy the things you really love: this is Indesit's philosophy and something we will continue working towards, always.

ONLINE EXTRA: Inspiring roomsets, exclusive competitions and tips to help you to enjoy your Indesit appliances fully – all to make your life easier! www.indesit.co.uk

Reasons to believe in Indesit

Introducing the Indesit range...

Choice is important to us all. Not only how we spend our time but also in how we look, how our homes look and what makes us individuals.

Choose from a complete range of **freestanding** or **built-in** appliances for **laundry, dishwashing, cooling, cookers, ovens, hobs** and **hoods**. To make life easier these appliances offer modern, **stylish** finishes with **flexible** capacities and a host of **time and energy saving solutions**.

Choice is key at Indesit. Choose to make a statement in the home with our freestanding options or opt for a sleek finish with our built-in range and hide the business end of the kitchen. Either way there is an **appliance for everyone**.

Efficiency

At Indesit our appliances are designed with the environment and energy efficiency in mind. From laundry to cooling, every category is feature packed with appliances to save you time, energy and money.

Reliability

We are so confident in our products that we offer a 5 years free parts guarantee on every Indesit appliance. Our commitment to making everyday life easier does not stop when the appliance is bought – Indesit's after sales care is second to none.

Functionality

All of our appliances are designed to offer solutions to make life easier but are also simple to use and stylish in appearance. Thanks to our easy to use displays and programmes, Indesit has a solution for every lifestyle – no matter what space is available.

1 An Indesit appliance is sold every 25 seconds.

2 In the last year Indesit have won **30 Which? Best Buys** across 9 different categories. We were also short listed for **Best Home Appliance Brand 2012** at the Which? Awards.

3 Indesit are the only brand to have **sport** running through its veins, with **unique washing and drying solutions** for sportswear.

4 Indesit are the **proud sponsors** in the UK of **Arsenal FC**, in France **Paris St Germain** and in Italy **AC Milan**.

Reasons to believe **Washing** the facts

1 PRIME

Our **most sophisticated** washing machine yet! Our Prime washing machines offer **contemporary design** with the **ultimate in advanced features**.

- Massive 9kg capacity – our biggest load yet.
- Innovative Technology allows for optimal wash results with minimum consumption of energy, water and time. Not only that but it's super silent as well.
- Our Gold Woolmark certification looks after even the most delicate of clothing and with A++ Energy rating this machine really is genuinely efficient!
- Large porthole allows for greater visibility.
- Ergonomically designed handles providing ease of grip.
- Instant door release means it opens when the programme has finished.

2 Washing Machines

We have **refreshed** our **laundry** platform with a new look team that is even **more efficient** – with a host of **new features** that will **save** even more **time, energy and money!**

PROGRAMMES

Water Balance System

This intelligent programme is designed to save water through sophisticated sensors adapting the amount of water used to the load size ensuring minimum waste but maximum performance during each load cycle!

New 20°C Zone

Three innovative 20°C cycles offer excellent washing results each time through enhanced drum agitation during the early part of the wash cycle activating the detergent ensuring efficient results even at cold temperatures.

Energy Saver Option

Use up to 70% less energy than the standard cotton cycle by washing lightly soiled garments at lower temperatures.

High Performance Sports Wash Programmes

First ever washing machine with specialist programmes dedicated to sports wear and sports shoes, giving incredible results whilst saving time and effort of hand washing.

Digital Assistance

Large digital interface provides total control with up to date information on the progress of your wash.

Time is precious!

Delay Timer

With our delay timer of up to 24 hours there's no need to plan everyday life around the household chores. Prepare the load; add the detergent, set the programme, and the machine will start at a chosen time.

Speedy Wash

If something needs washing in a hurry, this super speedy 15 minute wash programme washes lightly soiled garments in just 15 minutes.

3

Washer Dryers

Why just wash when you can dry too? Our range of washer dryers can wash and dry up to a **massive 6kg** in one cycle.

Our washer dryers **ALL** feature the **unique high performance sports wash programmes!**

PROGRAMMES

Humidity Sensor Drying

Practical solutions that take the guesswork out of drying! An automatic sensor in the drum monitors the moisture levels and stops the drum when the clothes are perfectly dry on the chosen setting, ensuring clothes stay good as new.

Iron: Damp enough so ironing is easier.

Hanger: Ideal for cupboard hanging to reduce creasing.

Cupboard: Completely dry and ready to put away.

Extra Dry: Ready to wear and go!

Express Wash and Dry

A time saving programme designed for those people with busy lifestyles needing to wash and dry small loads in just 45 minutes!

4

Tumble Dryers

Feature packed and easy to use, Indesit's tumble dryers help **save time and money**, whilst designed to **co-ordinate** perfectly with Indesit washing machines. Capacities range from a **huge 8kg** to the smaller, more **compact 3kg** – there is something to suit everyone's needs.

PROGRAMMES

Sports Shoe Rack

Unique shoe rack ensures perfect drying of trainers, while protecting them from moving around.

Humidity Sensor Drying

Multiple sensors measure air temperature and moisture inside the drum. You get the maximum control over your drying and it's also great for your energy bills.

Select From Four Levels Of Sensor Drying

Iron: Damp enough so ironing is easy.

Hanger: Ideal for cupboard hanging to reduce creasing.

Cupboard: Completely dry and ready to fold and put away.

Extra Dry: Ready to wear and go!

Eco Time

A programme dedicated to drying small loads in a short time, thereby optimizing energy consumption. Allowing small loads to dry in just 60 minutes!

5

Condenser vs vented: What's the difference?

Indesit offer a range of tumble dryer solutions to fit lifestyle and needs; including condenser and vented – but what is the difference?

Vented dryers take the steam extracted from damp clothes and pipes it outside of the home. The pipe can be fitted into an outside wall or simply hung out of a window. If this option is not possible...

Condenser dryers do not need a vent hose, they can be placed anywhere in the home. The internal condensing system collects moisture in an easy to empty water bottle at the top of the machine. If using a main drains option (standard on Indesit dryers), there is no need to empty.

Reasons to believe Dishwashing the facts

1

Dishwashing

Indesit dishwashers have been fully maximized inside to provide up to **14 place settings** and maximum loading flexibility, with height adjustable upper and lower baskets, designed to make **optimal use of internal space**, with sliding cutlery baskets so there is **more space for plates** and **less need for those rubber gloves!**

2

The ultimate in compact living!

Where space is a problem choose from either the slimline or **compact table top dishwasher**. Both are feature packed and will co-ordinate perfectly with all other appliances. Not only compact, these solutions are **energy efficient** too. Our IDS105 holds a Waterwise accreditation proving it uses **less than 1.08 litres of water per place setting!**

3

PROGRAMMES

Time4You

This A-rated 60° programme washes and dries dishes in just over an hour. Right first time, without compromise and as a good as an intensive wash.

Intelligent Spraying System

Evenly distributed water is pressurised in a spray over the dishes that significantly reduces noise levels with no reduction in washing powder. It's our quietest dishwasher yet.

Prime Technology

Our Prime dishwashers minimize energy and water consumption while guaranteeing optimal wash results in the least time possible. A sophisticated sensor detects the level of food particles in the dishwasher and consequently sets the jet pressure, temperature and number of rinses in order to obtain impeccable wash results whilst using only the necessary quantities of energy and water.

Rapid 35

Our quickest wash ever for when those unexpected guests turn up! Perfect for lightly soiled dishes, Indesit's rapid wash means dishes are clean in just 35 minutes!

Delicates

With the delicates option, on all Indesit dishwashers, the electronic temperature control avoids extreme variations of heat while the water-pressure control ensures a delicate wash, keeping those delicate glasses safe.

Save time for fun!

Delay Timer

Indesit digital dishwashers come with up to 24 hour delay timer meaning you simply load the dishwasher; add the detergent, select the programme and Indesit will do the rest at a time that suits you.

Reasons to believe **Cooling** the facts

1 Cooling

Our cooling range is jam packed with features that cater for all needs. Whether it's size or type of fridge, we've got it covered. Our **'Water Through The Door'** 60cm Fridge-freezer will suit both thirst and storage needs and if space is an issue, our integrated range will provide a **smart solution**. One thing all our cooling range has in common? **More technology and less energy!**

2 No Frost vs Static

No Frost fridges and freezers use **Dynamic Air Control** which ensures the temperature is kept the same on each shelf. No moisture will be present in the fridge, so say goodbye to food odours. No frost **prevents the formation of ice** so there is **no need** to think about **defrosting** the freezer.

Static fridges and freezers have a higher level of humidity which means **food will not dry out** and doesn't need to be covered. These ranges are generally less expensive and **operate silently**.

3 PROGRAMMES

Variety Of Choice

With Indesit there is something for everyone and cooling is no exception. Choose from a wide variety of colours and widths for flexible storage solutions.

Hygiene Control

With this state of the art antibacterial protection technology, a coating on the inside of the fridge protects against bacteria, for the safest environment for food.

Super Cool/Super Freeze

This function lowers the internal temperature of both the fridge and freezer to rapidly cool new groceries.

Dynamic Air Control

Is an innovative technology that improves the air flow around the fridge ensuring cool, consistent temperatures at every shelf level, reducing condensation build-up meaning the food stays fresher for longer.

Twin Light

This light is placed at the front of this appliance and allows the whole space to be visible so food does not obstruct your view. Solutions to make everyday life easier.

Digital Display

This premium innovative digital display not only looks good but allows for ultimate control over the internal environment of your appliance.

Bottle Chill

The bottle chill function lowers the temperature in the top freezer drawer just long enough to chill a bottle of wine to its perfect serving temperature. A buzzer signals when the bottle reaches the best temperature.

Slim fit!

When space really is limited, Indesit's skinny range of fridge freezers are the perfect solution. **Feature packed and only 55cm wide!** All are available in white, silver or black, we don't disappoint on choice.

Reasons to believe **Cooking** the facts

1

Cooking

From **budding chefs** to **keen amateurs**, there is a cooker designed with every need in mind. Our cookers combine elegance, sturdiness and functionality for easier use and a longer life.

2

Wide Choice

Single, twin, double or range cookers. Typically a single oven will allow one meal to be cooked at a time, whereas a twin oven gives the option of a separate grill and oven, ideal for a Saturday fry-up! For the more experienced chef there is the double oven, giving the flexibility of cooking two separate dishes at one time. Or for the real pro, choose one of the gorgeous range cookers available in either **gloss Black** or stunning **Red**, to make a real statement!

The new ergonomic controls add a **premium look** and feel to any kitchen, so choose from a **wide variety of exclusive colours**, or even an **LED clock display** to create a real focal point in any kitchen!

3

A rainbow of colours

Stand out from the white box crowd! Our 90cm range cookers come in either a high **gloss Black** or **stunning Red**!

Even the smaller cookers have a wide variety of exclusive colours to choose from. Our 50-60cm cookers are available in **Stainless Steel**, **White** exclusive **Moonstone Silver**, **Black** or another exclusive colour **Anthracyte**!

4 PROGRAMMES

How to make cooking simple.

Choose from a wide range of features to make everyday life easier...

Ceramic Hobs

Indesit ceramic hobs offer increased efficiency and faster heat than solid plate hobs. They are also easy to use and clean with a sleek surface to wipe away spills.

Wok Burner

Our wok burner offers a powerful 3.25kW dual flame. This ensures the wok gets heat underneath and around the pan for a perfect stir-fry.

Flame Supervision Device

The entire Indesit cooking range features Flame Supervision Device technology, which automatically cuts off the gas supply in the event of the flame blowing out.

Variable Grill

The twin or double oven feature of variable grill, gives maximum flexibility, whilst saving time and money.

Minute Minder

Simply set the time for as long as needed and let the oven do the hard work. Wait for the ping! And your meal will be ready. With an easy to read LED display, it can't go wrong.

Reasons to believe Built-In Ovens the facts

1

Built-In ovens

Indesit's range of single and double ovens combine stylish looks, ease of use and functionality to make cooking simple and enjoyable. A choice of ovens built-in to a column or built-under a worktop, all with a wide range of colour options, there is an oven to match every kitchen design.

Why choose a built-in oven?

Nearly all of our ovens are either A or AA rated, offering a stylish and energy efficient cooking solution. One advantage with built-in appliances is that you can choose a different style, position and fuel for you hob compared to your oven, for maximum flexibility.

2

PROGRAMMES

Many of our built-in ovens feature multifunction cooking!

These programmes make cooking much easier, but what does each function do for you?

Conventional

Top and bottom heat, perfectly concentrating heat in the middle of the oven, great for roasts.

Multi-level

Useful for when there is a variety of dishes to cook on different racks, without mixing smells and tastes.

Grill/Half Grill

Top heat only: perfect for cheese on toast and finishing off your pasta bake.

Fan Grilling (Gratin)

The combination of fan and grill ensures meals cook evenly inside and out. This mode works best with pork, lamb and poultry.

Speedy Barbecue

Perfect for an indoor barbecue! Meat, fish and vegetables well toasted without the smoke and mess.

Freeasy Cook

Ideal for cooking frozen food quickly. The oven does not need to be pre-heated, therefore saving time.

Baking

Perfect for pastries and cakes: an even heat to help cakes rise to perfection.

Pizza

Similar to a traditional pizza oven this programme heats up very quickly, using mostly the bottom element to make sure the pizza base is crispy.

Easy Cleaning Options

No-one likes cleaning their oven so choose from either easy clean enamel lines or catalytic liners which keep your oven clean by absorbing all the fat and greasy deposits.

Electronic Programmable Timer

The programmable timer allows for the start and finish times to be pre-set. This suits the demands of a busy lifestyle.

Pyrolytic Cleaning

Our self cleaning pyrolytic option! The powerful self cleaning oven automatically locks the triple glazed door, the oven heats up to 500°C and burns off all the fat and food residue leaving just a small pile of ash to wipe away. The best part is it costs less than 50p per cycle, so throw away those rubber gloves.

Reasons to believe Hobs and Hoods the facts

1

Hobs

We all have features in mind when looking for the perfect hob – how powerful it is or perhaps how easy it is to clean. Indesit has it covered with a large range of gas, electric and induction hobs in a variety of colours to perfectly match other appliances in the kitchen. Space is often a hurdle, which is why Indesit has introduced a 75cm hob to its range, giving 15cm more cooking space than the standard 60cm width. The advantage of this 75cm hob is that it can be inserted into a 60cm cut out which means the hob can be changed, giving more space, but without disrupting the kitchen.

PROGRAMMES

Domino Hobs

These slimline hobs are ideal for those kitchens with limited worktop space. Indesit has introduced gas and ceramic options to choose from, or even mix and match for a completely customised hob solution. Domino fitting strips are also available for a perfectly coordinated look.

Flame Supervision Device

The Indesit cooking range features models with Flame Supervision Device technology, which automatically cuts off the gas supply in the event of the flame blowing out.

Powerful Wok Burners

Our wok burners offer a powerful 3.5kW dual flame. This ensures the wok gets heat underneath and around the pan for the perfect stir-fry.

Pan Supports

The new ergonomically designed pan supports allow for a more secure and stable cooking experience. They are also easy to remove to allow for quick and easy cleaning of the hob.

2

Hoods

The Indesit collection offers a range of hoods to fit with all kitchen styles, from designer glass chimney hoods to integrated hidden hoods. Keep the cooking environment steam and odour free whilst using the light from the hood to focus on food preparation or provide a little mood lighting when entertaining. The perfect addition to the kitchen.

PROGRAMMES

Perfect Extraction

Need a powerful hood? Take the extraction rate of the hood and divide it by the volume of the kitchen in cubic meters. The higher the better, but as long as the result is over 6 then the hood is perfect.

Always keep in mind the size of the kitchen when picking a hood, as the smaller the kitchen but larger the extraction, the nosier it will appear to be.

Filters

Our metallic filters can be washed in warm water with a little washing up liquid to keep them functioning and looking like new.

Indesit's Solution to the Kitchen Revolution!

An Induction hob is a speedy, clean, cooking machine. OK, gas is fast and controllable, but Induction is faster and equally controllable with benefits. Boiling a pint of water takes just 90 seconds! Gas romps in at 3.5 minutes!

It's cleaner and safer too! It works by using a magnetic field and only heats the pan, the surrounding area does not get hot so no more mess. Most pans work with Induction just try sticking a fridge magnet on the bottom and if it sticks, it'll work. Simple!

And the very best thing is they are so easy to clean you get more time to enjoy doing the things you like.

Quality from start to finish

At the heart of all we do.

Quality is not just a company choice.
Quality is an essential requirement.

At all stages of the creation of an electrical appliance, everyone's job is to achieve the highest quality: at the initial design stage; at the subsequent development stage; in the choice of raw material suppliers; in all plant's production processes up to and including technical assistance service when the electrical appliance is in the customer's home. The quality that guarantees the success of our products is a procedure we all carry together.

Indesit is the first white goods manufacturer to gain SGS* multi-site certification with **ISO 9001: 2008 Quality Management System**. Internationally recognised, it demonstrates our commitment to service, quality and customer satisfaction.

*Société Générale de Surveillance

Invest in people and product.

£18 M invested
since 2005

an average of £3 M per year

Since 2006, **500 designers**
have spent **12,000 hours**
in quality training courses
in Research and Development

Shop floor workers involved in quality
involvement programmes with

180 specific working teams

All appliances are tested to stimulate up to 10 years of use:

For example our washing machines have to go through this rigorous testing before they get to your homes:

30,000 door opening & closing operations

50,000 interface interactions

50,000 knob turns

2,500 dispenser drawer open & closes

1,250 wash cycles

Our promise to you

Our commitment to making your life easier does not stop once you have bought your appliance. Indesit's after sales care is second to none.

Invest in people and product.

Rest assured – you're covered

Your Indesit appliance is covered for a full 12 months by our own parts and labour warranty. Now you are also covered for 5 years FREE parts too, when you use our local Indesit engineers. They only fit genuine replacement parts and we guarantee their work for 90 days.

Appointments to suit you – not us

You can choose between morning or afternoon appointments with the option of the engineer's first or last visit of the day. We will also send you a text message with a 2 hour time slot on the morning of your appointment. Saturday appointments are also available in some areas.

Local engineers – nationwide

We have the largest white goods service team in the United Kingdom and Republic of Ireland with fully qualified Indesit engineers to ensure you receive fast, reliable local service.

Call us at your convenience – 364 days a year

Indesit service is second to none. You can call us when you need us, including weekends and bank holidays on **UK 08448 224 224** or **ROI 0818 31 34 13**. Alternatively book online any time at www.indesitservice.co.uk

Your peace of mind – total protection

For a small monthly outlay you can ensure that we continue to provide repair protection – including new for old product replacement for your appliance, after your warranty expires. Please call **UK 08448 226 226** or **ROI 012 30 02 33** for more information.

Caring for your Indesit – looking good for life

We have a wide range of accessories to protect and enhance your appliance as well as Professional Home Care cleaning products to keep it looking good and functioning efficiently throughout its life. Please call **UK 08448 225 225** or **ROI 0818 31 34 13** for more information. Alternatively buy online as www.indesitservice.co.uk

Fridge Care Spray (500ml Spray)

Code: C00091581

A professional, no rinse cleaning spray with an antibacterial action that removes grease and disinfects all internal surfaces.

Deep Cleansing Oven Care (500ml Spray)

Code: C00091618

Dissolves grease and grime build up, without scrubbing to professionally deep clean your oven.

Ceramic Hob Care (500ml Spray)

Code: C00091587

Rapidly dissolves all build-up and other residue on glass ceramic hobs leaving it in showroom condition.

Limescale and Detergent Remover (Pack of 12)

Code: C00090908

Suitable for Washing Machines*/ Washer Dryers and Dishwashers. Protects your appliance from the harmful effects of limescale build up and hygienically cleans all internal components as well as eliminating bad odours.

*Not suitable for Top Loading Washing Machines

The **Indesit** Appliance Collection.
