WASHING MACHINE PRODUCT FICHE

| BRAND NAME | HOTPOINT |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| COMMERCIAL CODE | NM11 946 WS A UK N |
| RATED CAPACITY IN KG OF COTTON | 9 |
| ENERGY EFFICIENCY CLASS | - |
| Energy consumption 0 kWh per year, based on 220 standard washing cycles for cotton programmes at 60°C and 40°C at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used. | |
| ENERGY CONSUMPTION OF THE STANDARD 60°C COTTON PROGRAM AT FULL LOAD | 0 kWh |
| ENERGY CONSUMPTION OF THE STANDARD 60°C COTTON PROGRAM AT HALF LOAD | 0 kWh |
| ENERGY CONSUMPTION OF THE STANDARD 40°C COTTON PROGRAM AT HALF LOAD | 0 kWh |
| POWER CONSUMPTION IN LEFT-ON MODE | 0 W |
| POWER CONSUMPTION IN OFF MODE | 0 W |
| Water consumption 0 litres per year, based on 220 standard washing cycles for cotton programmes at 60°C and 40°C at full and partial load. Actual water consumption will depend on how the appliance is used. | |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on ho | |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on ho | |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. | |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) | ow the appliance is |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) MAXIMUM SPIN SPEED | O RPM 0% the information oiled cotton laundry |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) MAXIMUM SPIN SPEED Moisture content % on dry load after max. spin - NEW (2010/30/EC) The "60° Cotton" and the "40° Cotton" are the standard washing programs to which in the label and the fiche relates. These programs are suitable to clean normally so | O RPM 0% the information oiled cotton laundry |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) MAXIMUM SPIN SPEED Moisture content % on dry load after max. spin - NEW (2010/30/EC) The "60° Cotton" and the "40° Cotton" are the standard washing programs to which in the label and the fiche relates. These programs are suitable to clean normally so and they are the most efficient programs in terms of combined energy and water of | O RPM O'k the information oiled cotton laundry consumption. |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) MAXIMUM SPIN SPEED Moisture content % on dry load after max. spin - NEW (2010/30/EC) The "60° Cotton" and the "40° Cotton" are the standard washing programs to which in the label and the fiche relates. These programs are suitable to clean normally so and they are the most efficient programs in terms of combined energy and water of AVERAGE WASHING TIME OF THE 40° Cotton WITH HALF LOAD | O RPM Ok the information oiled cotton laundry consumption. O min |
| 60°C and 40°C at full and partial load. Actual water consumption will depend on housed. Spin-drying efficiency class - on a scale from G (least efficient) to A (most efficient) MAXIMUM SPIN SPEED Moisture content % on dry load after max. spin - NEW (2010/30/EC) The "60° Cotton" and the "40° Cotton" are the standard washing programs to which in the label and the fiche relates. These programs are suitable to clean normally so and they are the most efficient programs in terms of combined energy and water of AVERAGE WASHING TIME OF THE 40° Cotton WITH HALF LOAD AVERAGE WASHING TIME OF THE 60° Cotton WITH FULL LOAD | O RPM Okase the information oiled cotton laundry consumption.
