STANDARD ACCESSORIES

Freeze bowl with dual walls

Once completely frozen*, the liquid (an aqueous solution) within the double walls of the bowl will provide thorough, even freezing of ice cream batter throughout the mixing process.

Ice cream maker drive assembly

The drive assembly attaches to the motor head on the beater shaft and drives dasher on all KitchenAid stand mixers.**

Dasher

Engages with the drive assembly to spread, scrape and mix ice cream batter within the freeze bowl.

* For best results, store the freeze bowl in the back of your freezer where the temperature is coldest for at least 15 hours.

** Does not fit the Mini Stand Mixer model 5KSM3311X
