Some recipes may require a bit less cook time or fewer shakes of the Cook & Crisp™ Basket. For best results, check progress throughout cooking. As a good rule of thumb, you can scale down pressure recipes like soups, stews, and chilis by 50% when using the unit. And for recipes that call for the basket, the one included with the 6L model fits 50% fewer ingredients.

- 3 Halfway through cooking, check tomatoes are cooked as desired. If further dehydrating is desired, continue to dehydrate for remaining 2 hours.

TIP These tomatoes can be kept in an air tight jar for 2 weeks in cupboard as they are a lovely soft texture that does not require reconstituting. Great for pasta, pizza and salads.

For best results,
shake, toss,
or flip often.

We recommend frequently checking your food and shaking, tossing, or flipping it to ensure desired results.

Use these cook times as a guide, adjusting to your preference.

Shake your food

OR

Toss or flip with
silicone-tipped tongs

Remove food immediately after cook time is complete and your desired level of crispness is achieved. We recommend using an instant-read thermometer to monitor the internal temperature of proteins.
