TRADE MARK

SONY

MODEL NAME

KD-49XG8396

ENERGY EFFICIENCY CLASS

A

SCREEN SIZE (INCH, MEASURED DIAGONALLY)

49" (48.5")

SCREEN SIZE (CM, MEASURED DIAGONALLY)

123.2cm

POWER CONSUMPTION (IN OPERATION)

Rated: 160W / Standard: 88.0W

ANNUAL ENERGY CONSUMPTION*

122 kWh/Year

POWER CONSUMPTION (IN STANDBY)

0.50W

DISPLAY RESOLUTION (H X V, PIXELS)

3840x2160

Energy consumption per year [kWh/annum] is based on the power consumption of the television operating 4 hours per day for 365 days. The actual energy consumption will depend on how the television is used.

1) TV does not have the off switch and off mode:

- The picture of the off switch is not indicated on the energy label;

- The power consumption of the TV in the off mode is not indicated in the product fiche.

2) The letters "xx" in the name of the model correspond to the digital designation of its color design or television system, which does not affect the energy efficiency of the TV. The full name of the model is indicated on the TV itself and its fiche.
