

ROIDMI S1S

Cordless lightweight vacuum cleaner with extended battery runtime

Style meets performance in the ROIDMI S1 Special. This elegant, app-connected smart cordless vacuum cleaner features a high-speed digital motor delivering 120AW suction power. Two high-tech brush rollers ensure outstanding cleaning on any floor surface. Comprehensive tools make for versatile cleaning around the home. The S1 Special's effortless style includes a sleek magnetic wall dock.

Experience innovative technology with the Engine-X Digital Brushless Motor. It spins at 100,000 rpm and, combined with the Air-X Dust Separation Technology, the ROIDMI S1 Special delivers a continuous powerful performance with no loss of suction!

The S1 Special is equipped with double HEPA filters which eliminate up to 99.7 % of dust and dirt and ensure efficient capture of allergens and bacteria as small as 0.3 microns. This means that the S1 Special is equipped with a small air purifier ensuring the exhaust air is cleaner than the air it draws in.

Magnetic storage

After use, simply click your S1 on to your magnetic storage dock and plug in the charger

Anti-tangle cleaning head

Prevents hair being wound around the brush. Perfect for families with pets.
