

ROIDMI

X30 VX

Cordless Vacuum Cleaner

with LED colour display, App and Multi Surface Cleaning Head

ROIDMI TOP OF THE RANGE cordless vacuum cleaner for vacuuming and 200 rpm wet wiping!

Intelligent app management

Connect to your smart device via Bluetooth™ for a wealth of information about battery capacity and battery health, cleaning time, remaining dust bin capacity, filter element condition and even the calories you are burning while cleaning. If you just want to clean, there is no need to use the app at all.

LED display provides full overview

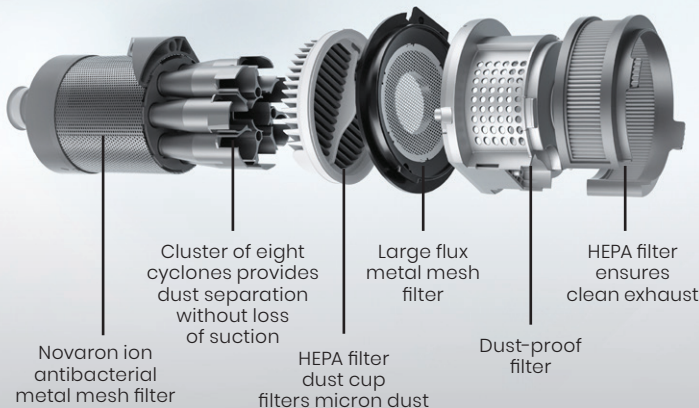

LED display

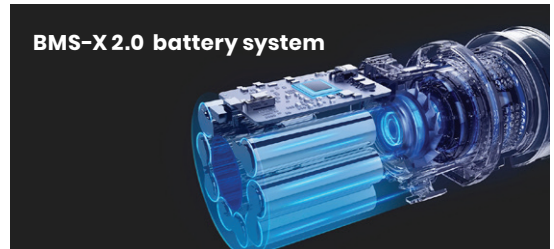

The LED display gives you full overview of the many functions, including battery level and filter condition.

6-level air-purifier filtration and antibacterial coating

X30 VX offers air-purifier quality, six-level filtration, ensuring any dust and allergens stay in the bin.

BMS-X 2.0 battery system

80 min run time (tested at standard level)

The new BMS-X battery offers extended run time through innovative cell management and the highest quality LG/Samsung lithium batteries. The run time has been increased to 80 minutes per charge (tested at standard level), allowing you to clean up to to 450m² of floors on one charge.

Electric water tank with smart chip technology

Roidmi's Multi Surface Cleaning Head uses smart chip technology to manage water flow keeping the mop moist, but not wet - the floor will be dry again right away.

Wet wiping speed: 200rpm or 10m²/min

Water tank capacity: 240ml / 30min

ROIDMI X30 VX

Cordless vacuum cleaner with LED colour display and app

X30 VX is ROIDMI's top of the range in the cordless vacuum cleaner range, sporting superior cleaning ability, long run time per charge and both vacuuming and high speed wet wiping option with the Multi Surface Cleaning Head. Cleans wooden floors, marble floors, tile, carpet and even glass surfaces.

Silent, user friendly and with a full range of accessories including innovative app management, ROIDMI X30 VX is superior in cleaning ability as well as versatility.
