

Expect even cooking, every time

The golden brown on a potato gratin. The deep crust on a fillet of beef. The moist depths of a rich chocolate cake. Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your oven. Unlike standard ovens, the SurroundCook oven's advanced fan technology ensures that every

Product Benefits & Features

Cook more at the same time and still get a perfect result

The additional heating ring in our oven ensures your dishes are evenly cooked – even when loaded with up to three trays – for corner to corner deliciousness. Sure to make each portion as perfect as the last.

An at-a-glance overview of the status of your dish

The timer display provides an at-a-glance overview of the status of your dish. Its clear screen enables you to set an alarm, check directly on the time remaining before your dish is ready and to adjust the timer with accuracy and precision.

Cooked evenly everywhere

With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called SurroundCook, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be reduced by

Perfectly bake even the largest batches

Less isn't always more, especially when it comes to delicious baked goodies. The XL Baking Tray is 20% larger than standard-sized baking trays, enabling you to turn out larger batches of sweet treats, with the satisfaction that every single one has been perfectly baked.

A quicker way to toast and crisp

This highly efficient grill takes less time than traditional ovens, and will toast, crisp or brown your dishes to precision.
