

Effectively and easily cleans your dishes

The AEG 5000 series cleans effectively and finish drying with fresh air. It's spacious and easy to operate with time-based cycle selection and height adjustable upper basket.

Product Benefits & Features

Finishes drying with fresh air

AirDry finishes drying with natural airflow. The door automatically opens towards the end of the cycle, letting room-temperature air into the dishwasher. Up to 3x better drying compared to a closed-door system.

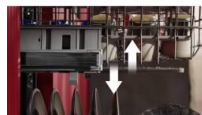

No more thinking about what program to use. Just choose time

No need to choose a program with TimeSelect display. Just decide how soon you want your dishes to be ready and let the dishwasher take care of the rest.

Versatile space to conveniently clean cutlery and utensils

The EasyFlex drawer is designed to fit cutlery and different-sized utensils, even when large or awkwardly shaped.

Space where you need it: Height-adjustable upper basket

Easily create more space at the top or bottom with the height-adjustable upper basket. Simply grab the handle on both sides of the upper basket and slightly pull up to raise or lower it.

Clean dishes in 30 minutes

When you need clean dishes fast: QuickProgram takes just 30 minutes. Efficient and convenient.

- Energy efficiency (2010/30/EC): D
- Installation: FS
- Stainless steel door, panel and plinth
