

Easy, responsive energy-efficient cooking

The 3000 induction hob heats the pan directly, resulting in fast, accurate temperature response and easier, more precise, energy-efficient cooking.

Product Benefits & Features

Save time and energy with fast, efficient, induction cooking

By heating the pan directly instead of heating a burner, induction hobs heat your food with more speed and energy efficiency than radiant hobs. Temperature control is precise and immediate.

Mastering the menu.

At your fingertips

The individual touch controls in the AEG induction hob are equipped with plus or minus buttons for effective temperature control. Adjust the settings at a touch for absolute control over the cooking process. Precision for every step of a recipe, always resulting in great taste.

Intense rapid heat

No more waiting around for pots to boil. The PowerBoost button gives you an instant burst of heat that boils water in under 90 seconds* – that's even faster than an electric kettle. It's perfect for tasks like boiling potatoes, and other quick cooking jobs too, like searing meat.

Total control over cooking time

The adjustable timer (max. 99 minutes) will remind you of the cooking time. It can also be used as a minute minder when the burners are not in use.

Precise settings.

Protected

Activate the key feature to lock cooking settings. From the time to the temperature, everything can be set and secured at the touch of a button. So there's no possibility of changing anything accidentally while wiping spillages from the surface. Simply press the key feature again afterwards to

- PowerBoost: Gives an instant increase in temperature allowing water to boil in less than 90 seconds.
- Pause functionality allows you to take short breaks without losing your cooking settings.
- OptiFix™: Only one step to install the hob.
- Child lock safety function.
- Minute Minder

Product Specification

Series	3000
Main Colour	Black
Plug or Hardwired	Hardwired connection only
Dimensions (mm) (WxD)	290x520
Built-in Dimensions (mm) (HxWxD)	44x270x490
Cord Length (m)	1.1
LED Colour	Red
Front Middle - Power/Diameter	2300/3600W/210mm
Rear Middle - Power/Diameter	1400/2500W/145mm
Gas Supply: Natural Gas	N/A
Gas Replacement	N/A
Product Number (PNC)	All Open
Control Functions	3 step residual heat, Acoustic signal, Booster, Child-lock, Key-lock function, Minute minder, Pause, Sound off, Timer
Pan Support Type	N/A
Number of Cooking Zones	2
Hob Type	Induction Hob
Frame Type	Frameless Square
Hob Safety	Automatic Switch Off
Total Electricity Loading (W)	3650
