

AUTOMATICALLY ADJUSTS TIME, WATER AND ENERGY CONSUMPTION BASED ON THE LOAD SIZE

The 6000 ProSense® Washing Machine automatically adjusts time, water and energy consumption to the size of the load, even if it just a single shirt or your entire weekly laundry. Ensuring your clothes are only washed for the exact amount of time needed to maintain colours and textures for longer.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

Product Benefits & Features

PROSENSE® REDUCES UP TO 30% OF TIME, WATER, AND ENERGY* BY OPTIMISING EVERY LOAD

ProSense® automatically weighs each load to provide a tailored cycle. It can reduce your time, water, and energy usage by up to 30%*. Sensors then adjust washing times precisely, providing optimum treatment for every garment. Ensuring your laundry comes out with that fresh new feeling, every time.

Less creases with EasyIron

The EasyIron programme leaves your clothes with fewer creases. During the gentle cycle, the drum alternates the direction of its rotation, allowing clothes to move more freely. So you spend less time standing over your ironing board.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

THE HYGIENE PROGRAMME REMOVES MORE THAN 99.99% OF BACTERIA AND VIRUSES*

The Hygiene programme certified by Swisstatest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

MIXLOAD 69 MIN CUSTOMISES LAUNDRY CYCLES AND SAVES YOU TIME

The MixLoad 69 min programme adjusts energy usage based on load weight when cleaning daily mixed loads. It washes clothes at 30°C and in just 69 minutes. Achieve optimal performance and outstanding cleaning results with MixLoad 69 min.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstatest Testmaterialien AG in 2021 (Test Report No. 202120117)

INVERTER MOTOR+. DURABLE AND ENERGY-EFFICIENT

Experience energy-efficient washing for longer with the Inverter Motor+. Built for low energy consumption thanks to permanent magnet motor technology.

- Maximum spin speed: 1400 rpm
- Washing capacity: 9 kg
- Washing programs: 20Min 3Kg, Cottons, Delicates, Duvet, Eco 40-60, Hygiene, Mixload 69Min, Outdoor, Synthetics, Wool
- Extra rinse option
- Stains treatment option
- Number of detergent dispenser compartments: 3
- Feet: 4 adjustable feet
- Anti-flood protection
- Antiflood device with Aqua Control sensor
- ÖKOInverter motor: The lowest energy consumption with the highest efficiency and durability.

Product Specification

Installation type	Free_Standing	Width, mm	597
Product Typology	Front_Loaded_Full_Size	Depth, mm	636
Installation	FS	Cabinet material	Steel
Washing technology	Eco valve	Drum volume, l	68.6
Cabinet type of	HEC 60	Full load washing capacity, kg	9
Design family	Ruby_6000 Refresh	Inlet hose type	Standard cold
Design level	E.1 Level	Inlet hose length, cm	130
Main colour	White	Door lock type	Pull to open
Panel colour	White	Outlet hose length, cm	145
Front door	A Black door	Det. dispenser type of	Long
Push button functions	DELAY, Easy Iron, Extra Rinse, ON/OFF, Options, Spin, Stain/Prewash, Start/Pause, Temp., TIME SAVE		
Push button, number of	10		
Knob/Command func.	Program		
Knob/Command func., number of	yes		
Program list	20Min 3Kg, Cottons, Delicates, Duvet, Eco 40-60, Hygiene, Mixload 69Min, Outdoor, Synthetics, Wool		
Indicator program	LED		
Indicators display	Medium LED		
Indicators other	Easy iron, Extra rinse, Only Rinse, Spin/Drain, Start/Pause		
Display type	Medium LED		
Height, mm	847
