

90cm Series 7

Contemporary 5 Burner Dual Fuel Freestanding Cooker

Series 7 | Contemporary

A striking addition to your kitchen, with five powerful gas burners and the cooking flexibility of two convection ovens.

- Two convection ovens offer a combined capacity of 111L for ample cooking space
- Seven oven functions: Bake, Grill, Fan Forced, Fan Grill, Fan Bake, Warm, and Defrost
- Five burner gas cooktop, with precise heat control and 4kW Wok burner

- Non-tip shelves make it easy to get large dishes in and out of the oven

DIMENSIONS

Height	882 - 932 mm
Width	900 mm
Depth	600 mm

FEATURES & BENEFITS

Cooking flexibility

This freestanding dual fuel range cooker has seven functions, including Bake, Grill, and Fan Forced, allowing you to use a variety of cooking styles.

Sized to suit

Designed for multi-shelf cooking, this freestanding dual fuel cooker offers 70L of space in one cavity and 41L in the other, providing ample room for a large family roast and all the trimmings.

Complementary design

With a stylish stainless steel finish, our freestanding range cookers are designed to complement the rest of Fisher & Paykel's kitchen appliance family.

Burner power & control

The consistent flame and heat distribution of the gas burners combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.

Safe and sound

The door and cavity cooling system keeps the heat inside, protecting your hands and surrounding cabinetry. Additionally, the non-tip shelves make it easy to get large dishes in and out of the oven.

SPECIFICATIONS

Accessories (included)

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
