

569L Series 7 French Door Refrigerator Freezer, Ice

Series 7 | Contemporary

Stainless Steel | French hinge

- Our largest capacity French Door model has intuitive, flexible storage space, with a stylish stainless steel finish.
- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
 - Spacious bottom freezer with full extension drawer gives easy access to frozen goods.
 - Internal ice maker with boost feature for busy times

DIMENSIONS

Height	1790 mm
Width	900 mm
Depth	695 mm

FEATURES & BENEFITS

- Simple storage**
- This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.
- Ice maker**
- Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space, or during busy times you can boost ice production by up to 30%.

Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

CLEVER ENERGY

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Complementary Design

With their premium handle styling and stainless steel finish, our refrigerators are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

SPECIFICATIONS

Capacity	
Total net volume	569L
Volume freezer	152 L
Volume refrigerator	417 L

Consumption	
Energy rating	E
Energy usage	297kWh/year
In-use energy carbon emissions estimate	59.0kgCO2e/year

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
