Pans large or small – the dual zone can handle both!

You can use different sizes of pans on this hob's smart dual zone. It efficiently heats standard-sized pans but can also easily handle larger ones.

Total hob management, with Touch Controls

Specify cooking levels, set timers and adjust temperatures with the Touch Controls. The operation panel is embedded directly into the hob's glass. For full cooking control with a few taps.

No overcooking with Timer function

When the timer you've set runs out, the hob will automatically switch off the heat. It can be set to a maximum limit of 1.5 hours, which means that even if you're concentrating on a few different things at once, your meal will be ready when you are.
