

**Create exactly the cooking layout you want or need**

Domino hobs are ideal for small kitchens, but you can also mix, match and combine them to create your own tailor-made cooking centre.

**Product Benefits & Features**

**Induction hob is easy to clean, fast and safe**

Induction technology only heats the base of the pan, so the surrounding area will remain cool to the touch. And seeing as the surface is completely smooth, it's easy to clean with the wipe of a damp cloth.

- Wipe clean ceramic hob surface
- 4 Induction zones with Powerboost
- Child safety control lock
- 99 minute timer with accoustic signal
- Easy to reach front controls

**Manage every zone, with Touch Controls**

The Touch Controls on the induction hob provide a simple way of choosing your settings. The touch-sensitive glass shows temperature options, and all it takes is a tap to select them.

**Intense heat when you need it, with PowerBoost**

The PowerBoost function is designed for intense heat on demand, by quickly bringing water to a boiling point or turn up the temperature under your griddle pan for searing and sealing steaks. Built for convenience, to make preparing your favourite meals easier.

**No overcooking with Timer function**

When the timer you've set runs out, the hob will automatically switch off the heat. It can be set to a maximum limit of 1.5 hours, which means that even if you're concentrating on a few different things at once, your meal will be ready when you are.

**Cooking settings secured, with Key Lock**

Activate the hob's Key Lock feature so your settings won't change if they're accidentally knocked or touched. Spills or splashes can be quickly wiped away, and everything will remain unchanged, until you decide they need to be.

## Product Specification

Hobs Dimensions	290x520
Aperture dimensions HxWxD in mm	44x270x490
Radius cutting	5
Cord Length	1.1
Middle front - Power/Diameter	2300/3600W/210mm
Middle rear - Power/Diameter	1400W/2500/145mm
Led Colour	Red
ProdPartCode	All Open
Plug	No
