## Product Benefits & Features

### Evenly cooked results, on any level

Get perfectly even oven results with Multilevel cooking. An additional heating ring promises even cooking across all three levels. Which is great for cooking more favourite dishes at the same time.

- Economy variable grill
- Top heat
- Fan controlled defrosting
- Retractable oven controls with LED display
- Oven features:
  - Heat activated catalytic cleaning
  - Chrome grid runners with auto-stop anti-tip shelves
  - 2 oven shelves
  - Fan cooled double glazed door with heat reflective glass
  - 'A' energy class

### Catalytic Cleaning – a spotless oven with only a wipe

Catalytic Cleaning prevents dirt and grease from building up in the oven. This self-cleaning technology automatically activates when the temperature reaches 250°C and removes cooking residue. No scrubbing needed.

### Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

### Touch to time every meal / Perfectly timed meals with LED display / Time taken care of

Keep track of all your dishes with the LED timer display. Setting exact cooking times is straightforward with the touch-activated fields. Making it easier than ever to juggle a few different dishes at once.

### Cook more at once with XL baking tray

An XL baking tray welcomes bigger dishes. Cook more at the same time for friends and family, and feel reassured it will all be ready at once.
